Banned Books Week:

Celebrating the Freedom to Read is observed during the last week of September each year. Observed since 1982, the annual event reminds Americans not to take this precious democratic freedom for granted.

Banned Books Week (BBW) celebrates the freedom to choose or the freedom to express one's opinion even if that opinion might be considered unorthodox or unpopular and stresses the importance of ensuring the availability of those unorthodox or unpopular viewpoints to all who wish to read them. After all, intellectual freedom can exist only where these two essential conditions are met.

Banned Books Week is sponsored by the American Booksellers Association, the American Booksellers Foundation for Free Expression, the American Library Association (ALA), the Association of American Publishers, the American Society of Journalists and Authors and the National Association of College Stores. It is endorsed by the Library of Congress Center for the Book.

Many bookstores and libraries across the nation join in the celebration with displays and readings of books that have been banned or threatened throughout history. These include works ranging from the Bible and "Little Red Riding Hood" to John Steinbeck's "Of Mice and Men."

This list is a sample of books that have been banned or considered controversial throughout history.
